

## Policy for environmental protection

**Karmann Manufacturing LLC, Keel Street Plant is committed to the receipt, manufacture and delivery of materials and products in an environmentally conscious manner.**

- We will seek ways to continually improve our manufacturing and delivery systems.
- We will practice pollution prevention by demonstrating good judgment and decision making in our manufacturing and operations systems.
- We actively promote our environmental policies by fostering open communications and building relationships with our stakeholders.
- We will comply with environmental laws on a local, state-wide, national and international level.
- Through teamwork, we will involve all our employees in environmental stewardship and promotion of pollution prevention.
